Acknowledgements

Incidents were reported by Nominated Officers of the Veterinary Laboratories Agency for England and Wales and Divisional Veterinary Managers for Scotland and, through them, by private laboratories.

Divisional Veterinary Managers of the State Veterinary Service are responsible for the collection of samples of processed animal protein.

Staff of the Centre for Epidemiology and Risk Analysis the Veterinary Laboratories Agency processed the data.

The following reference laboratories made or confirmed the majority of isolations:

- Veterinary Laboratories Agency, Weybridge and Lasswade.
- HPA Laboratory of Enteric Pathogens, Colindale.
- Scottish *Salmonella* Reference Laboratory, Glasgow.

This report was compiled by:

Sarah Evans and Sue Kidd,
Centre for Epidemiology and Risk Analysis,
Veterinary Laboratories Agency,
New Haw,
Addlestone,
Surrey,
KT15 3NB
