Total for all Scrapie Surveillance	Sheep	1	130	20	22	0	0	0	1	1	130	20	23
	Goats	7	8	0	0	0	0	0	0	7	8	0	0

¹Includes fallen stock and abattoir surveys. The number of animals tested under these surveys varies from one year to the next, according to EU requirements. Detailed active surveillance statistics are available from the main TSE surveillance statistics webpage (http://www.defra.gov.uk/vla/science/sci_tse_stats_intro.htm).

²Animals tested from flocks under restrictions following confirmation of scrapie on the premises.

Data valid as at 07 February 2012
