

Application for approval of a disinfectant under: The Diseases of Animals (Approved Disinfectants) (England) Order 2007 for the purposes of The Animal Health Act 1981

This form is suitable for the submission of disinfectants for efficacy testing for use under UK Animal Disease Orders as listed below in Section D. This form is also suitable for the application for an approved disinfectant to be sold under a different name – i.e. approval for a trade name.

Please read these notes before completing this form.

A	Applications will only be accepted from the owner of the name and formulation of the disinfectant. Approval is given for a product as manufactured by the applicant. A separate application form must be completed for each disinfectant.
B	Applications will only be processed for products meeting the requirements of the Biocidal Products Directive; submission of this signed form signifies compliance with those requirements. Visit http://ec.europa.eu/environment/biocides/index.htm for details.
C	Testing will commence upon payment of the required fee. Cheques or postal orders should be crossed and made payable to "The Veterinary Laboratories Agency". In some circumstances, payment may be made by bank transfer. Cash cannot be accepted. Fees for testing cannot be refunded once testing has commenced. Contact disinfectants@ahvla.gsi.gov.uk for further guidance.
D	<p>For approval purposes disinfectants are divided into five groups (four specific animal disease Orders and one general). According to the type of approval being sought, you will need to send the following sample quantities for each approval:</p> <ul style="list-style-type: none"> – for use under Foot-and-Mouth Disease Orders <i>one 100ml sample (or 100g if in dry form)</i> – for use under Swine Vesicular Disease Orders <i>one 100ml sample (or 100g if in dry form)</i> – for use under the Diseases of Poultry Order and the Avian Influenza and Influenza of Avian Origin in Mammals Order <i>one 500ml sample (or 100g if in dry form)</i> – for use under Tuberculosis Orders <i>one 500ml sample (or 100g if in dry form)</i> – for use where animal disease control legislation (other than the four Orders above) made under the Animal Health Act or the European Communities Act requires the use of an approved disinfectant (<i>one 500ml sample or 100g in dry form</i>) <p>If further samples are required you will be notified.</p>
E	Disinfectants will be subject to random check tests. If the sample fails the efficacy test, approval for use under that Order will be subject to article 6 of the SI.
F	Approval is granted for 2 years. Subsequent approval is subject to conditions.

1. Information is required for all applications

1.1 Name of manufacturing company's representative(s)¹

1.2 Manufacturing company's name

1.3 Address of manufacturer

Postcode

1.4 Telephone number *(including international dialling code where appropriate)*

1.5 Email address

1.6 Fax number

1.7 Company VAT number

¹To safeguard information about your product, this is the person the Animal Health and Veterinary Laboratories Agency will use in all correspondence. This should be the person who signs the form. There may be other representatives we can communicate with and the names of these should be made known to us at your earliest convenience.

3. Complete this table for new products only, ie: not trade name applications

Please complete this table for 'parent' products indicating which Order(s) you are applying for approval under, the dilution and the fee being paid.

* Solid products will be tested at a concentration of 1g to (x)mls of water

(1)	(2)	(3)	(4)	(5)
Test for approval for use under the following Orders	Fees per test (£)	Tick which types of approval are sought	*Dilution at which the preparation is to be used (expressed as 1 part to x parts water)	Fee (£)
(a) Foot-and-Mouth Disease	1,920			
(b) Swine Vesicular Disease	1,920			
(c) Diseases of Poultry and the Avian Influenza and Influenza of Avian Origin in Mammals:				
1. single dilution test or	1,040			
2. triple dilution test	1,400			
(d) Tuberculosis				
1. single dilution test or	1,300			
2. triple dilution test	1,620			
(e) General **				
1. single dilution test or	715			
2. triple dilution test	815			
(f) Administrative charge	1,770			1,770
Total amount enclosed				

** This category is for approval for use against animal diseases other than (a) to (d) under the appropriate legislation, and for general use where there is a statutory requirement for an approved disinfectant to be used.

Please note that VAT is payable and the prices shown do not include VAT.

4. Complete this table for trade name (back to back) approvals only

4.1 Please complete the following table indicating the Orders under which the parent product is pending or already approved for use under, the approved dilution and the date (if applicable), that the product was approved.

	Date of approval
• Foot and Mouth Disease Orders in the proportion of one part of this preparation to _____ parts of water.	_____
• Swine Vesicular Disease Order in the proportion of one part of this preparation to _____ parts of water.	_____
• Diseases of Poultry Order and the Avian Influenza and Influenza of Avian Origin in Mammals Order in the proportions of one part of this preparation to _____ parts of water.	_____
• Tuberculosis Orders in the proportions of one part of this preparation to _____ parts of water.	_____
• Approval for use against diseases other than the above under the appropriate legislation made under the Animal Health Act 1981 in the proportions of one part of this preparation to _____ parts of water.	_____

Manufacturers of an approved disinfectant may make it available under different trade names or supply it to customers wishing to make it available under their own trade names. The disinfectant approved and supplied must be identical to the sample tested. Please give the trade names already used for your product as well as new trade names for which approval is being sought. Also provide the names and addresses of companies wishing to distribute your product under their own trade names. A disinfectant must not be marked as approved until its name appears on the list published on the Defra website at <http://www.defra.gov.uk>

4.2 Trade names to appear on the list published on the website.	Company name	Address, e-mail and telephone number	Name and signature of company representative

Please tick if any information has been supplied separately

Approval of disinfectants by the Secretary of State does not relieve manufactures of their obligation to obtain other statutory or non-statutory clearance, or of their general responsibilities to users of their products. Attention is also drawn to legal requirements regarding classification, packaging, labelling and provision of information on dangerous goods, both for supply and transport. Advice on these may be sought from the Health and Safety Executive www.hse.gov.uk

It is an offence to make an approved disinfectant available which is labelled incorrectly. Every container in which an approved disinfectant is supplied must bear a label containing the information at 4.1

It is an offence to make a false claim on this application form and may result in approval of your product being revoked.

Company Representative's Signature (*person named at 1.1*)

Date

Signed on behalf of (*company name*)

Confidentiality of data

Commercial information supplied to Defra and laboratories carrying out testing will be treated as confidential. Any personal data supplied on this form or provided separately by you in connection with this application will be used to contact you and process your application. Such data will be stored on a database for the purpose of administering the disinfectant approvals mechanism and disclosed to the laboratories that undertake statutory testing. Names and addresses of manufacturers and distributors of disinfectants approved for statutory use under the Animal Health Act will be publically available on the Defra website.

Send 3 copies of the application form (with payment) to:

Defra Disinfectant Approvals
Customer Accounts & Programme Support (CAPS) Unit
Animal Health and Veterinary Laboratories Agency
Woodham Lane, New Haw, Addlestone
Surrey KT15 3NB

NB: For trade name approvals only (section 4) send only one copy of this form.

Send the required samples (see D) of the disinfectant and
3 copies of the health and safety data sheet to:

Department of Bacteriology
Animal Health and Veterinary Laboratories Agency
Woodham Lane
New Haw, Addlestone
Surrey KT15 3NB

Receipt of your application form will usually be acknowledged within 5 working days.

The labels below should be completed and used to label the packages and sample container in which samples are sent to the Animal Health and Veterinary Laboratories Agency.

Outer Package Label	
Disinfectant samples for Defra approval	
To:	Department of Bacteriology, Animal Health and Veterinary Laboratories Agency, Addlestone, Surrey KT15 3NB
Name of disinfectant	<input type="text"/>
Tests required:	Foot-and-Mouth Disease..... <input type="checkbox"/>
<i>(tick appropriate box)</i>	Swine Vesicular Disease <input type="checkbox"/>
	Diseases of Poultry and the Avian Influenza and Influenza of Avian Origin in Mammals:
	• Single dilution <input type="checkbox"/>
	• Triple dilution <input type="checkbox"/>
	Tuberculosis:
	• Single dilution <input type="checkbox"/>
	• Triple dilution <input type="checkbox"/>
	General Purpose:
	• Single dilution <input type="checkbox"/>
	• Triple dilution <input type="checkbox"/>

Inner Sample Container Label	
Disinfectant samples for Defra approval	
To:	Department of Bacteriology, Animal Health and Veterinary Laboratories Agency, Addlestone, Surrey KT15 3NB
